Name: Parat 5500	Code: 45985	Escape Systems - Dräger
-------------------------	--------------------	--------------------------------

Description

The fire escape hood Parat 5500 is designed to let you breath safely for a minimum of 15 minutes by filtering out toxic gases, particles and fumes, filtering out even the feared, odourless "carbon monoxide". The hood Parat 5500 can easily be worn over the head, ensuring eye and airway protection, guaranteeing a fast and secure escape even in smoke filled areas. It is also suitable for non-specialist personnel and for individuals wearing glasses. The Parat 5500 hood is in high resistance, high visible, self-extinguishing and flame resistant fabric (for temperatures greater than 1000°C). The mounted CO P2 filter provides protection against gases that develop in the presence of a fire (chlorine, hydrochloric acid, nitrogen monoxide, sulphur dioxide).

Total weight of hood: 660 grams.

Dimensions: 190 x 135 x 90 mm.

Duration of the sealed package: 16 years. 8 years for the universal filter CO P2.

The product is designed and manufactured to comply with the essential health and safety requirements of Directive 89/686/EEC, and to conform to the requirements of EN 403.

It is classified as PPE Cat. III.

Category III	Colours Yellow	Available Sizes
Quantity/Carton 1	Important Information	Recommended for Provides protection to eyes and the breathing apparatus, ensuring an easy and safe escape by the environments filled with smoke.
